CONVERSATION SUMMARY

The customer has requested information about a withdrawal that has not yet appeared in their account after using Mercado Pago.

Category: withdrawal → withdrawal_status → pending	Outcome: ⚠️ Not fully resolved
Sentiment: 😡 frustrated	End reason: page_unload
Duration: 353s	Messages: 7 total (3 from customer)

KEY CUSTOMER MESSAGES:

"Ya retire el dinero pero no está en mi cuenta todavía"

"No todavía no tengo el dinero en mi cuenta"

Full conversation (7 messages):

¡Hola! Soy tu asistente de soporte **BetonWin** 24/7. ¿En qué puedo ayudarte hoy?

Ya retire el dinero pero no está en mi cuenta todavía

Entiendo tu preocupación. Los retiros pueden tardar un tiempo en procesarse, dependiendo del método que hayas utilizado. Te recomiendo revisar tu cuenta bancaria o el método de pago que elegiste. Si el problema persiste, házmelo saber.

Elegí mercado pago

Entiendo. Los retiros a Mercado Pago pueden tardar un poco más en reflejarse en tu cuenta. Te sugiero que revises tu aplicación de Mercado Pago para ver si hay alguna notificación o actualización. Si el dinero no aparece en un tiempo razonable, házmelo saber.

No todavía no tengo el dinero en mi cuenta

Lamento que aún no hayas recibido el dinero. A veces, los retiros pueden tardar más de lo esperado. Te sugiero que verifiques si hay algún problema en tu cuenta de

Follow-up to ticket #663229

From: Miguel (BETONWIN2) <support@betonwin2.zendesk.com>
Sent: Monday, 06 July 2026 11:54:31
To: De <deliagalarza903@gmail.com>
Subject: Solicitud #663229 - Documento de

Estimado Cliente,

Gracias por ponerse en contacto con el equipo de soporte de Beton.win.

Nos gustaría informarle que de los comprobantes que nos ha enviado, los siguientes son los que se acreditaron con éxito:

- 18 de Junio - 18:30: Acreditado a las 18:50:29 el 18 de Junio.
- 18 de Junio - 18:52: Acreditado a las 14:52:06 el 18 de Junio.
- 18 de Junio - 20:32: Acreditado a las 21:39:55 el 18 de Junio.
- 18 de Junio - 18:50: Acreditado a las 19:23:57 el 18 de Junio.

Con respecto al comprobante del 18 de Junio - 15:33:

El depósito no pudo acreditarse porque la orden de depósito no fue creada antes de realizar la transferencia, o se generó después. Para que funcione correctamente, primero debes generar la orden en la plataforma y luego realizar el pago con los datos indicados.

En este caso, como la transacción no se completó, el dinero será reembolsado automáticamente por el proveedor de pagos a tu cuenta de origen. Este proceso puede tardar hasta 7 días hábiles, dependiendo de tu entidad bancaria.

Si tiene alguna otra pregunta, ¡no dude en contactarnos en cualquier momento!

Esperamos tenga un buen resto de su día!

Gracias Atentamente,
Equipo de Soporte al Cliente de Beton.win

Tor mvarasia, Oficinadepartes Show more

Estimado Marcelo,

Comprendo perfectamente su malestar por el tiempo transcurrido y lamento los inconvenientes que esto le ha causado. Le aseguro que su decisión es completamente respetada.

Para darle una solución definitiva, le informo que su caso ha sido derivado a nuestro departamento correspondiente nuevamente para que tomen su solicitud con la máxima prioridad y procedan con la gestión del cierre de su cuenta de forma segura.

Agradecemos su paciencia mientras el equipo especializado finaliza este proceso. Quedo a su disposición si necesita cualquier otra asistencia.

Atentamente,

Equipo de Soporte VIP de Bet On Win

Benny 2:32 AM

Hi team, @here

Cx ID: 248433351

VIP status: VIP

Ticket: #665839 (Follow-up to: #619712)

Case Details: I am escalating this case as the VIP customer has reached out again demanding the permanent closure of his account and the complete deletion of his data from the application. He is expressing severe frustration, stating that weeks have passed since his initial request and his decision has not been respected.

Could you please review pls?

Thanks!

8. SLA policies.

Service level agreements

A Service Level Agreement (SLA) is a contract between you and your customers that specifies performance measures for support by ticket priority. For example, we respond to urgent tickets in ten minutes and resolve them within two hours. A Group SLA is an agreement you have with internal teams. Your policies are applied to tickets in the order they appear on this page, so drag to reorder as needed.

[Learn about SLAs and Group SLAs](#)

SLAs

These are SLA policies between your organization and your customers. Policies are applied to tickets in the order they appear.

Default						

Name

Initial routing configuration

Description

Preconfigured by Zendesk to start with

Global routing

Select how to route and assign incoming tickets to agents.

Ticket sorting

By default, tickets are sorted and assigned to agents by priority and date created. You can choose to prioritize tickets with a service level agreement (SLA).

☐ **Prioritize tickets with a service level agreement (SLA)**

Tickets closest to breaching their SLAs are assigned first. Tickets without SLAs are sorted by priority and date created. [Manage SLAs](#)

Assignment method

Customize the preferred way of assigning incoming tickets to agents. [Learn about assignment methods](#)

Round robin

☐ **Skills-based routing**

Automatically route work to team members with matching skills. Make sure to create and assign skills to agents before turning on skills-based routing. [Manage skills](#)

☐ **Focus mode**

While agents will be online for voice, live chat, and messaging conversations, they will only be assigned work from one channel at a time.

☒ **Reassignment for reopened tickets**

Reopened tickets will be reassigned to the original agent. If unavailable, the ticket will be reassigned to the agent's group or through queues, if enabled.

☒ **Email**

Reassign email tickets when an agent has the following status

☐ Offline

☒ **Messaging**

Reassign messaging tickets when an agent has the following status

☐ Offline

☐ **Auto-reassign open tickets**

Automatically reassign open tickets when agents change their status to specified states.

☐ **Reassign tickets through queues**

When tickets are reassigned to a group, they'll be rerouted through queues. [Learn about reassigning tickets through queues](#)

Email routing

Select how to offer and assign email tickets to agents.

☒ **Automatically open assigned email tickets**

The ticket will open in a new tab and the assigned agent will be notified. [Learn about automatically opening email tickets](#)

Messaging routing

Select how to offer and assign messaging conversations to agents.

☐ **Wait until an agent accepts**

☐ **Reassign if an agent doesn't accept within the time limit**

Time limit (seconds) ⓘ

30

☒ **Auto-accept for an agent**

This way customers can get a quick response even when it gets busy.

☒ **Count inactive conversations towards an agent's capacity**

Include all active and inactive messaging tickets in an agent's capacity. [Learn more about messaging](#)

11. Channels / каналы

Messaging

Embed messaging in your website and apps and integrate popular social channels to streamline support for customers and agents.
